Fwd: Controlled Andemar Deicit Animal Study

Pete Neal
Andemar Dust and Ice Ltd.
St. Marys, Ontario

Andemar Deicit (Tm), is a pet safe deicer invented and patented in Canada, by Andemar Dust and Ice Control Ltd. , St. Marys , Ontario
Andemar, recently commissioned a study to prove that Deicit is in fact safe for pet exposure .
The study was conducted under the primary consultation of Dr.James Templeman (PhD) and Dr. Elad Rosenfeld (DVM).
This controlled study involved repeated exposure of 30 dogs to observe any paw lesions or abnormal effects including excessive water loss thru their paws .
Results from this study prove that no harmful effects were observed in the Andemar Deicit group as compared to the placebo .

Dr. James Templeman , PhD.
Post Doctoral Fellow/ Companion Animal Nutrition
Department of Animal Biosciences
University of Guelph
Ontario, Canada

Dr. Elad Rosenfeld, DVM
Primary Research Consultant
University of Guelph
